

Racks

<http://www.vent.com.pl/en/contact> Natural pine shelving is an attractive, low cost shelving system which can be configured in different ways, creating unique storage solutions for home, shop or office. We offer wooden racks in two basic variants: „BASIC” and „HD”. They are made from ecological, untreated coniferous wood and include screws for simple self-reliant assembly. 9 or 12 cuts on legs enable free regulation of shelves position. Available additional parts: wine shelf, additional shelf, additional corner-shelf, mobile storage crate. Shelves are open or closed. We offer also shoeracks.

Racks "Basic"

Wooden rack 1700x800x400mm with 4 or 5 shelves, made of coniferous wood. Legs from slat 70x15mm. Shelves size: 380x380mm. 12 cuts enable free regulation of shelves position. Each shelf has 80 kg of maximum load. Mounting of the rack is easy and all necessary screws are included in each set.

Heavy Duty Rack

Wooden rack 2000x1000x400mm made of coniferous wood. Legs from slat 62x22mm. 4 Shelves thickness 18mm. 9 cuts enable free regulation of shelves position. Each shelf has 100 kg of maximum load. Mounting of the rack is easy and all necessary screws are included in each set.

Shoe rack

Racks are in two versions available: from slat 20x15mm without any screws for simple assembly and from slat 48x10mm with hex socket head screws and allen keys. Mounting is very easy and all necessary screws are included in each set.
